Zurich, 8 September 2014

Books

1. D. Klatte, H.-J. Lüthi, K. Schmedders, editors. *Operations Research Proceedings 2011.* Springer, Berlin-Heidelberg, 2012.

2. D. Klatte and B. Kummer. *Nonsmooth Equations in Optimization: Regularity, Calculus, Methods and Applications.* Kluwer, Dordrecht-Boston-London, 2002.

3. D. Ward, D. Klatte, and J. Rückmann, editors. *Optimization with Data Perturbations II.* Annals of Operations Research, (Complete) Volume 101. Kluwer, 2001.

4. D. Klatte (co-editor). *Advances in Mathematical Optimization* (J. Guddat et al., editors). Akademie-Verlag, Berlin, 1988.

5. B. Bank, J. Guddat, D. Klatte, B. Kummer, and K. Tammer. *Non-Linear Parametric Optimization.* Mathematische Lehrbücher und Monographien, II. Abteilung: Mathematische Monographien, Band 58. Akademie-Verlag, Berlin, 1982. published also by Birkhäuser, Basel-Boston, 1983.

Original papers (refereed)

6. D. Klatte and B. Kummer. Calmness of the Argmin Mapping in Parametric Optimization Problems. *Journal of Optimization Theory and Application*, accepted August 2014, also optimization online, February 2014.

7. D. Klatte and B. Kummer. Aubin property and uniqueness of solutions to cone constrained optimization. *Mathematical Methods of Operations Research*, 77(3): 291-304, 2013.

8. D. Klatte, A. Kruger and B. Kummer. From convergence principles to stability and optimality conditions. *Journal of Convex Analysis* 19(4):1043-1072, 2012.

9. D. Klatte. Comments on: M.A. López, Stability in linear optimization and related topics. A personal tour. *Top. An Official Journal of the Spanish Society of Statistics and Operations Research* 20(2):250-254, 2012.

10. S. Bütikofer, D. Klatte and B. Kummer. On second-order Taylor expansion of critical values. *Kybernetika*, 46:472–487, 2010.

11. S. Bütikofer and D. Klatte. A nonsmooth Newton method with path search and its use in solving $C^{1,1}$ programs and semi-infinite problems. *SIAM Journal on Optimization*, 20:2381–2412, 2010.

12. D. Klatte and B. Kummer. Optimization methods and stability of inclusions in Banach spaces. *Mathematical Programming*, 117:305–330, 2009.

13. M.J. Cánovas, D. Klatte, M.A. López, and J. Parra. Metric regularity in convex semi-infinite optimization under canonical perturbations. *SIAM Journal on Optimization*, 18:717–732, 2007.

14. D. Klatte and B. Kummer. Newton methods for stationary points: an elementary view of regularity conditions and solution schemes. *Optimization*, 56:441–462, 2007.

15. D. Klatte and B. Kummer. Stability of inclusions: Characterization via suitable Lipschitz functions and algorithms. *Optimization*, 55:627–660, 2006.

16. D. Klatte. Discussion: J.-J. Rückmann, J.A. Gómez, On generalized semi-infinite programming. *Top. An Official Journal of the Spanish Society of Statistics and Operations Research* 14(1):32-39, 2006.

17. D. Klatte and B. Kummer. Strong Lipschitz stability of stationary solutions for nonlinear programs and variational inequalities. *SIAM Journal on Optimization*, 16:96–119, 2005.

18. C. Grossmann, D. Klatte, and B. Kummer. Convergence of primal-dual solutions for the nonconvex log-barrier method without LICQ. *Kybernetika*, 40:571–584, 2004.

19. D. Klatte and B. Kummer. Second-order characterizations of Lipschitz stability in nonlinear programming. *Journal of Mathematical Sciences*, 116:3231–3252, 2003.

20. P. Fusek, D. Klatte, and B. Kummer. Examples and counterexamples in Lipschitz analysis. *Control and Cybernetics*, 31:471–492, 2002.

21. D. Klatte and B. Kummer. Constrained minima and Lipschitzian penalties in metric spaces. *SIAM Journal on Optimization*, 13:619–633, 2002.

22. E.G. Belousov and D. Klatte. A Frank–Wolfe type theorem for convex polynomial programs. *Computational Optimization and Applications*, 22:37–48, 2002.

23. D. Klatte and B. Kummer. Contingent derivatives of implicit (multi-) functions and stationary points. *Annals of Operations Research*, 101:313–331, 2001.

24. D. Klatte. Upper Lipschitz behavior of solutions to perturbed $C^{1,1}$ programs. *Mathematical Programming*, 88:285–311, 2000.

25. D. Klatte and W. Li. Asymptotic constraint qualifications and global error bounds for convex inequalities. *Mathematical Programming*, 84:137–160, 1999.

26. D. Klatte and B. Kummer. Strong stability in nonlinear programming revisited. *Journal of the Australian Mathematical Society, Series B*, 40:336–352, 1999.

27. D. Klatte and B. Kummer. Generalized Kojima–functions and Lipschitz stability of critical points. *Computational Optimization and Applications*, 13:61–85, 1999.

28. D. Klatte and R. Henrion. Regularity and stability in nonlinear semi–infinite optimization. In R. Reemtsen and J. Rückmann, editors, *Semi–Infinite Programming*, pages 69–102. Kluwer, Dordrecht, 1998.

29. D. Klatte. Hoffman's error bound for systems of convex inequalities. In A.V. Fiacco, editor, *Mathematical Programming with Data Perturbations*, pages 185–199. Marcel Dekker Publisher, New York, 1998.

30. D. Klatte. Lower semicontinuity of the minimum in parametric convex programs. *Journal of Optimization Theory and Applications* **94** (1997) 511–517.

31. D. Klatte. Lipschitz stability and Hoffman's error bounds for convex inequality systems. In J. Guddat, H. Th. Jongen, F. Nožička, G. Still, and F. Twilt, editors, *Parametric Optimization and Related Topics IV*, pages 214–230. Verlag Peter Lang, Frankfurt/Main, 1996.

32. D. Klatte and G. Thiere. A note on Lipschitz constants for solutions of linear inequalities and equations. *Linear Algebra and its Applications* **244** (1996) 365–374.

33. D. Klatte and G. Thiere. Error bounds for solutions of linear equations and inequalities. *ZOR – Mathematical Methods of Operations Research* **41** (1995) 191–214.

34. D. Klatte. Stable local minimizers in semi-infinite optimization: Regularity and second-order conditions. *Journal of Computational and Applied Mathematics*, **56** (1995) 137–154.

35. D. Klatte. On regularity and stability in semi-infinite optimization. *Set-Valued Analysis*, **3** (1995) 101–111.

36. D. Klatte. On quantitative stability for non-isolated minima. *Control and Cybernetics*, **23** No. 1/2 (1994) 183–200.

37. R. Henrion and D. Klatte. Metric regularity of the feasible set mapping in semi-infinite optimization. *Applied Mathematics and Optimization*, **30** (1994) 103–109.

38. D. Klatte. Perturbation of stationary solutions in semi-infinite optimization. In J. Henry and J.-P. Yvon, editors, *System Modelling and Optimization*, pages 167–176. Springer, Berlin, 1994.

39. D. Klatte. Nonlinear optimization under data perturbations. In W. Krabs and J. Zowe, editors, *Modern Methods of Optimization*, pages 204–235. Springer, Berlin, 1992.

40. D. Klatte. Stability of stationary solutions in semi-infinite optimization via the reduction approach. In W. Oettli and D. Pallaschke, editors, *Advances in Optimization*, pages 155–170. Springer, Berlin, 1992.

41. D. Klatte. Strong stability of stationary solutions and iterated local minimization. In J. Guddat, H. Th. Jongen, B. Kummer, and F. Nožička, editors, *Parametric Optimization and Related Topics II*, pages 119–136. Akademie-Verlag, Berlin, 1991.

42. D. Klatte. Sensitivity analysis in nonlinear optimization. *Methods of Operations Research* **64** (1991) 81–90.

43. H.Th. Jongen, D. Klatte, and K. Tammer. Implicit functions and sensitivity of stationary points. *Mathematical Programming* **49** (1990) 123–138.

44. D. Klatte and K. Tammer. Strong stability of stationary solutions and Karush-Kuhn-Tucker points in nonlinear optimization. *Annals of Operations Research* **27** (1990) 285–308.

45. D. Klatte and K. Tammer. On second-order sufficient optimality conditions for $C^{1,1}$-optimization problems. *optimization* **19** (1988) 169–179.

46. D. Klatte. On strongly stable local minimizers in nonlinear programs. In J. Guddat et al., editors, *Advances in Mathematical Optimization*, pages 102–111. Akademie-Verlag, Berlin, 1988.

47. D. Klatte. Zur Lipschitz-Stetigkeit bei parametrischen konvexen Optimierungsproblemen. *Seminarbericht Nr. 94,* S. 104–112. Sektion Mathematik, Humboldt-Universität zu Berlin, Berlin, 1988.

48. D. Klatte. Lipschitz continuity of infima and optimal solutions in parametric optimization: The polyhedral case. In J. Guddat, H. Th. Jongen, B. Kummer, and F. Nožička, editors, *Parametric Optimization and Related Topics*, pages 229–248. Akademie-Verlag, Berlin, 1987.

49. D. Klatte. A note on quantitative stability results in nonlinear optimization. *Seminarbericht Nr. 90*, pages 77–86. Sektion Mathematik, Humboldt-Universität zu Berlin, Berlin, 1987.

50. D. Klatte. On persistence and continuity of local minimizers of nonlinear optimization problems under perturbations. *Seminarbericht Nr. 80*, pages 32–42. Sektion Mathematik, Humboldt-Universität zu Berlin, Berlin, 1986.

51. D. Klatte. On the stability of local and global optimal solutions in parametric problems of nonlinear programming. Part I and Part II. *Seminarbericht Nr. 75*, pages 1–39. Sektion Mathematik, Humboldt-Universität zu Berlin, Berlin, 1985.

52. D. Klatte. On the Lipschitz behavior of optimal solutions in parametric problems of quadratic optimization and linear complementarity. *optimization* **16** (1985) 819–831. (also as Working Paper WP-83-121, IIASA Laxenburg/Austria, December 1983).

53. D. Klatte and B. Kummer. Stability properties of infima and optimal solutions of parametric optimization problems. In V. Demyanov and D. Pallaschke, editors, *Nondifferentiable Optimization: Motivations and Applications*, pages 215–229. Springer, Berlin, 1985.

54. D. Klatte. A sufficient condition for lower semicontinuity of solution sets of systems of convex inequalities. *Mathematical Programming Study* **21** (1984) 139–149.

55. D. Klatte and B. Kummer. On (Lipschitz-) continuity of solutions of parametric optimization problems. *Seminarbericht Nr. 64*, pages 50–61. Sektion Mathematik, Humboldt-Universität zu Berlin, Berlin, 1984.

56. D. Klatte. Eine Bemerkung zur parametrischen quadratischen Optimierung. *Seminarbericht Nr. 50,* S. 174-185. Sektion Mathematik, Humboldt-Universität zu Berlin, Berlin, 1983.

57. J. Guddat and D. Klatte. Qualitative stability in nonlinear parametric optimization and some applications. In A. Prekopa, editor, *Survey of Mathematical Programming, Part I*, pages 217–230. North Holland, Amsterdam, 1979.

58. D. Klatte. On the lower semicontinuity of optimal sets in convex parametric optimization. *Mathematical Programming Study* **10** (1979) 104–109. Errata correction: *Mathematical Programming* **17** (1979) p. 400.

59. D. Klatte. Über lokale Stabilitätsmengen in der parametrischen quadratischen Optimierung. *Mathematische Operationsforschung und Statistik. Series Optimization* **10** (1979) 511–521.

60. D. Klatte. Lineare Optimierungsprobleme mit Parametern in der Koeffizientenmatrix der Restriktionen. In K. Lommatzsch, editor, *Anwendungen der linearen parametrischen Optimierung,* S. 23–53. Akademie-Verlag, Berlin, 1979.

61. D. Klatte, F. Nožička, and K. Wendler. Ein lineares parametrisches Optimierungsmodell für die teilmechanisierte Gemüseernte. In K. Lommatzsch, editor, *Anwendungen der linearen parametrischen Optimierung,* S. 175–189. Akademie-Verlag, Berlin, 1979.

62. Über lineare Optimierungsprobleme mit Parametern in allen Koeffizienten der Zielfunktion und der Restriktionen. *Wissenschaftliche Zeitschrift der Humboldt–Universität zu Berlin, Mathematisch-Naturwissenschaftliche Reihe* **XXVI** (1977) 555–560.

Invited contributions (selected)

63. D. Klatte. In: *Encyclopedia of Optimization* (C.A. Floudas and P.M. Pardalos, editors). Kluwer, 2001.

64. D. Klatte. In: *Optimierung und optimale Steuerung - Lexikon der Optimierung* (A. Göpfert et al., editors). Akademie-Verlag, Berlin, 1986.
