

The Chair of Mathematics for Business and Economics at the University of Zurich (Switzerland) is looking for a

Research Assistant (PhD student, 60% employed)

starting from December 1st 2021 or earlier by arrangement

The Chair of Mathematics for Business and Economics focuses on the mathematical solution of business problems. We model and optimize stochastic dynamic systems, in particular via Markov decision processes and approximate dynamic programming. Our applications are in the field of operations management and revenue management in particular. We teach mathematics and optimization at the Bachelor and Master level.

We Offer

- The opportunity to work on a PhD thesis and to present your work at international conferences
- Interesting work as part of a dynamic team in a friendly working environment
- The possibility to interact with internationally renowned scientists
- An appropriate salary in accordance with the salary guidelines/scale of the canton of Zurich

Responsibilities

- Developing, managing and publishing research projects within the field of approximate dynamic programming or revenue management
- Assisting in teaching of introductory math or optimization classes
- Supervision of Bachelor or Master theses

Qualifications

- Strong background in mathematics and an excellent Master's degree in (applied) Mathematics, Computer Science, Industrial Engineering, or a related, quantitative field of study
- Basic knowledge of optimization and/or stochastic processes
- Good knowledge in at least one higher programming language (e.g. Matlab, AMPL)
- Strong motivation for scientific research and teaching
- Good organizational and communication skills
- Reliable team player
- Advanced English language skills

Further Information

Further inquiries regarding the position can be sent to christiane.barz@uzh.ch.

Applications

Applications should include a motivation letter, a CV, academic transcript and, if available, a certificate of the master degree and GMAT score. The documents should be sent in a single PDF to christiane.barz@uzh.ch.
